VAGHEGGI: THE PHILOSOPHY BEHIND IMPROVING YOUR QUALITY OF LIFE

The professional cosmetics brand Vagheggi has been around for over 25 years and was the first company to introduce phytocosmetic products and methods for its treatments in Italy. Wondering what phytocosmetics is? It simply refers to a branch of cosmetology that uses plants in cosmetics.

In modern cosmetics, it has become increasingly clear that allergies and skin irritation are made worse by environmental influences and the various chemical compounds present in our environment. As a result, the cosmetics industry has increased its focus on natural and plant-based ingredients.

By selecting ingredients on the basis of quality and purity along with strict chemical, physical and microbiological testing, Vagheggi is able to guarantee reliable and professional products.

Vagheggi has always avoided substances of animal origin. All compatibility and efficacy tests are also conducted without animal testing. In addition, all products are free from fragrances and colouring agents, dermatologically tested and hypoallergenic.

Vagheggi is a cosmetics line designed to improve quality of life while remaining kind to people and the planet.

CELL BOOSTER TREATMENT WITH HYALURON!

Facial structuring

The ideal treatment for mature and demanding skin.

With effective moisture retention and binding, DPHP (Dipalmitoyl Hydroxyproline) cell boosters and hyaluronic acid create youthful, fresh and firm-looking skin. Featuring a hyaluronic acid ingredient that works over both the long and short term, the treatment provides the optimum instant effect with lasting moisture retention.

Effect and active ingredients

Certified organic ingredients were developed and combined for this treatment to meet the particular needs of mature and demanding skin. Selected extracts, nourishing oils and the active ingredient complex of Damask rose oil (DPHP = Dipalmitoyl Hydroxyproline cell boosters) and hyaluronic acid leave skin looking youthful; the treatment also contains aloe vera, shea butter, rose oil, rosewater and malve, which soothe and nourish the skin with moisture.

White clay, titanium dioxide, pineapple and papaya extract, and sugar loosen and remove the top layer of skin cells; wild thyme, ginkgo, algae, calendula, jojoba oil, macadamia nut oil, vitamin E, DPHP cell boosters and hyaluronic acid activate and tighten the deep layers of the skin; vitamin A, algae, pineapple and kiwi extract, vitamin E, beta carotene, aloe vera, DPHP cell boosters and hyaluronic stimulate and activate the cells; alginates and cocoa-pulp extract lend their particularly firming and stimulating effect. Royal jelly, jojoba oil, avocado oil, chamomile, malve extract, hyaluronic acid and DPHP cell boosters nourish, moisturise and strengthen skin, helping to boost cell structure for more elasticity and plumper skin.

Treatment process

The cleansing stage incorporates both a soothing, moisturising and nourishing cleansing milk and gentle natural enzyme exfoliation. This loosens and removes the top layer of skin cells without subjecting the skin to mechanical stresses, allowing for quicker and deeper absorption of the subsequent active ingredients. Particularly suitable for mature or blemished skin.

As a next step, minerals and micronutrients tailored to the specific needs of your skin are applied and you can sit back to enjoy the activating facial massage.

The special heat mask is a warming mineral face mask that deeply infuses the skin with the underlying active ingredients. The intense heat opens the pores allowing the active ingredients to penetrate deep into the lower layers of the skin. Subsequent cooling closes the pores for a lasting effect. The final treatment nourishes, moisturises and strengthens the skin, provides elasticity and helps boost cell structure.

DIAMOND ⌚ 85 minutes € 133,-

A HIGH-TECH FACIAL – TREAT YOUR SKIN TO A LUXURY TREATMENT

Diamond dermabrasion is a secret weapon against ageing. Effective exfoliation activates skin resurfacing processes with a deep-reaching effect.

Diamond dermabrasion is an advanced alternative to microdermabrasion. It combines gentle, controlled exfoliation of dead corneocytes in the skin's upper layer to allow premium active ingredients to penetrate deep into the skin.

Controlled polishing with diamond tips removes dead skin cells from the top layer of the skin.

The treatment is pain-free and does not result in any undesired skin irritation.

It can successfully be used for a number of skin issues:

- Dry skin
- Hyperpigmentation
- Wrinkles and sun damage
- Blemished skin and blackheads

Effect and active ingredients

- Refines the skin's structure for oily, blemished and large-pored skin.
- Reduces the depth of wrinkles and improves scar tissue.
- Prepares the skin to absorb premium active ingredients.
- Skin looks noticeably improved after the first treatment. For fresher, softer and more elastic skin.

Treatment process:

The skin is first cleansed and prepared for the diamond dermabrasion. After this, high-concentration active ingredients and special face masks tailored to the individual needs of your skin are applied.

The final treatment rounds off the luxury indulgence.

BOOST THE RESULTS BY COMBINING DIAMOND DERMABRASION WITH AN ULTRASOUND TREATMENT

⌚ 20 minutes € 38,-

Diamond dermabrasion removes dead skin cells, making it easier for the skin to absorb deep-penetrating active ingredients with an ultrasound treatment. Modern beauty treatments can't do without ultrasound. During an ultrasound treatment, high concentrations of active ingredients are worked into the skin in a targeted manner to stimulate collagen production. Exposing the skin to ultrasound enables active ingredients such as ProHyluSystem 4.5% to penetrate into the deepest layers of the skin for a smoothing and plumping effect. Ideal for lacklustre, dehydrated, dry skin with lines and wrinkles. After the treatment, your skin cells will once again be able to absorb and retain moisture.

3. TAILORED BEAUTY TREATMENTS FOR EVERY SKIN TYPE.

EMOZIONI PLUS ANTI-STRESS FACIAL

🕒 55 minutes € 102,-

A targeted treatment for reactive, irritated, sensitive and/or intolerant skin with reduced resistance that's prone to tightness, irritation or scaliness. Restores and strengthens the skin's barrier, providing protection for capillaries and against UV rays.

Effect and active ingredients

An innovative system that combats issues faced by sensitive and intolerant skin caused by a wide range of reasons. The enveloping texture permits targeted protection with a soothing and refreshing effect, restoring the skin's healthy condition.

Curcuma possesses remarkable regenerative, antioxidant and anti-inflammatory properties; it blocks all stress-related skin irritation and has a soothing, regenerative and protecting effect.

Szechuan pepper limits the skin's thermal and tactile sensitivity.

Organic blueberry extract improves the strength of vascular walls, strengthening the skin and improving penetrability and elasticity.

Distilled **chamomile water** has a soothing effect.

Pomegranate is a key source of exfoliating tannins and enzymes.

Maritime pine has a strong antioxidant effect and neutralises free radicals while soothing and protecting the skin.

Treatment process

Gentle cleansing without subjecting the skin to any stress, hydro enzyme exfoliation, hyaluronic acid and beta glucan facial concentrate, cooling gel brush facial massage, anti-stress face mask, soothing final treatment.

BALANCE FACIAL

🕒 85 minutes € 117,-

Achieve the perfect balance for combination skin, blemished skin and skin with cosmetic flaws.

This professional treatment was created to combat excess sebum production and minimise pores. In turn reactivating oily skin and skin thickness, and stopping bacteria from growing to form blackheads. This facial has an astringent effect, clearing, cleansing, absorbing and controlling moisture content to reduce irritation, smooth and nourish the skin with moisture. For softer skin with a radiant glow.

Effect and active ingredients

- **Avocado:** this rich fruit contains an active ingredient that stops enzyme 5-alpha, the enzyme responsible for increasing sebum excretion, in its tracks.
- **Pineapple:** combats thickening of the stratum corneum with an anti-oedema effect.
- **Salix:** anti-inflammatory, soothing and exfoliating.
- **White willow:** regulates sebum excretion and reduces irritation for a clear complexion.

Treatment process

Double action enzyme exfoliation that combines cleansing (cleansing gel and tonic) with exfoliation. The exfoliating and smoothing effect leaves the skin feeling soft with a radiant glow; vapozone with deep cleansing; active concentrate containing white willow and pineapple to regulate sebum excretion,

minimise irritation and nourish the skin with moisture; the deep-cleansing sponge face mask removes excess sebum, clarifies the skin, evens tissue and minimises pores; the matte-effect active cream provides the optimal balancing finish with a UV filter.

LIME FACIAL

🕒 55 minutes

€ 96,-

With vapozone and deep-cleansing

🕒 85 minutes

€ 114,-

A BURST OF ENERGY FOR STRESSED SKIN

This professional treatment has a comprehensive antioxidant effect to revitalise the skin and give it a radiant glow.

Suitable for tired, pale skin subject to strong environmental influences (smog, smoke, UV radiation). Products from the Lime range provide the ideal solution for protecting skin against free radicals and combating premature skin ageing.

Perfect for preventing dry skin before and during extended periods in the sun.

Effect and active ingredients

Stabilised vitamin C boosts the skin's absorbing power with an antioxidant effect for a radiant glow. It also boosts collagen production, prevents cell damage and protects DNA.

Butter and essential oils derived from lime: rich in nutrients and antioxidants; stimulate microcirculation and provide relief for the skin;

Zinc: energising and firming with an anti-stress effect.

Neroli oil: rejuvenates, restores and regenerates reactive skin, the ideal treatment for dry skin.

Calendula oil: a highly nourishing oil with a healing effect on dry and sensitive skin. It also helps form new cell layers.

Jojoba oil: rich in natural antioxidants, jojoba oil is quickly absorbed by the skin and has a protective effect.

Treatment process:

Cleansing with a crystal clear micellar lotion for soft skin nourished with moisture. The micellar lotion comes into contact with the skin's surface to trap toxins and impurities. This also helps to strengthen and protect the skin's hydrolipid film.

The exfoliating gel containing mallow extract and micronized bamboo exfoliates the skin for a soft, smooth complexion. Mica leaves behind a radiant glow.

The facial massage is performed with a vitamin C ampoule for an anti-stress and antioxidant effect.

Vitamin C and E result in synergy between the coconut oil, lime leaves and essential lime oil from Mexico.

The special peel-off face mask with vitamin C leaves matte and lacklustre skin feeling soft. The mineralising zinc and orange spray containing vitamin C, orange blossom distillate and zinc nourishes the skin, provides a boost of energy and restores and firms the complexion all while combating stress.

As a final touch, the vitamin C cream is applied to deeply nourish and stimulate the skin with vitamin C, increasing elasticity for clear and glowing skin.

REHYDRA FACIAL

🕒 55 minutes

€ 102,-

With vapozone and deep-cleansing

🕒 85 minutes

€ 118,-

SPECIALLY DEVELOPED FOR DRY TO VERY DRY SKIN.

Based on a hydra plus complex consisting of blossom waters obtained during the extraction of essential oils through water distillation. The waters are richly saturated with hydrophilic substances with an antiseptic, anti-inflammatory and astringent effect. They don't contain any irritating terpenes, leaving you with rejuvenated, glowing skin. The Rehydra product range offers the ideal solution for dry to very dry skin that suffers from a deficit due to unfavourable environmental influences such as cold temperatures and low humidity. Benefit from the restoration of the skin's surface hydrolipid film, which protects the skin against moisture loss; the treatment also deeply nourishes the skin with nutrients and moisture.

Suitable for skin types of all ages that require an extra dose of moisture and nutrient care under certain circumstances. Also suitable for those undergoing medical treatments who require skin protection.

Effect and active ingredients

Marshmallow: prevents the natural breakdown of hyaluronic acid in the skin.

Hyaluronic acid: possesses hydrating and regenerative properties. Ultra-moisturising matrix molecule of the connective tissue that maintains the flow of moisture to the skin and increases plumpness and softness;

Soothing and cell layer-forming shea butter: for extra firmness and elasticity;

Jojoba oil: nutrient-rich protective ingredient for softer skin;

Provitamin B5: with a moisturising, antioxidant, protective and stimulating effect;

Allantoin: for soft and smooth skin with a strong healing effect. Stimulates cell regeneration while soothing and protecting skin;

Witch hazel: rejuvenating and anti-redness.

Treatment process:

The moisturising cleansing milk containing hydra plus complex (a plant-based active ingredient complex similar to our skin) cleanses the skin with extreme refinement, nourishes with moisture and promotes the normalisation of the skin's natural protective barrier. This is followed by the moisturizing lotion with a softening effect, enriched with marshmallow and hydra plus complex, hyaluronic acid and shea butter. All active ingredients found in these products are plant-based and optimise the skin's moisture content.

The relaxing facial massage with an active ingredient cream is a treat for the skin and senses. The ampoule containing hyaluronic acid and marshmallow actively nourishes the skin with moisture.

Following this, a moisturizing cream mask is applied to make the skin glossy, smooth and firm thanks to the hydra plus complex, Ximena Africana seeds, called 'sea lemons', and shea butter.

The lightweight eye contour cream nourishes sensitive skin areas around the eye to restore their radiant glow.

A wide number of fluids and creams are available for the final treatment. Depending on your skin's individual needs, a cream ranging from extremely lightweight and refreshing to deeply nourishing may be selected.

FACIALS FOR HIM

🕒 70 minutes

€ 91,-

MEN RELAX DIFFERENTLY – ATYPICAL FACIAL

A new cosmetic approach designed to maintain a healthy hydrolipid film and skin microbiome for fresh, rejuvenated skin.

Effect and active ingredients

Innovative textures, soft to the touch (noticeable indulgence) and functionality nourish the skin with moisture, offer protection and keep skin looking soft and smooth.

The active ingredient hempseed extract soothes the skin while nourishing it with moisture. Mohawk protein, a novel player that acts as an architect for the skin, promotes the production of new, wellorganised collagen I and III fibres to create the ideal biotensegrity. A new approach that meets the skin needs of modern-day habits and lifestyles.

Cannabis sativa seed extract nourishes with moisture, protects the skin and avoids signs of tiredness. hyaluronic acid nourishes the deepest layers of the skin with moisture and prevents wrinkles.

Bamboo stem extract smooths the skin leaving behind a fresh complexion, cocoa-seed extract refines pores, while coconut oil nourishes and smooths the skin.

Treatment process

Crash cleansing removes dirt and negative environmental influences from the skin and includes exfoliation for fresh, smooth and deeply-cleansed skin, leaving your skin feeling liberated and sumptuous. This is followed by a facial massage with active ingredients fine-tuned to your skin's individual needs, and a firming, soothing mineral or deep-cleanse face mask. As a final touch, the final treatment provides 24 hours of moisture thanks to nourishing hempseed extract.

Walk out of your treatment with minimised pores and smoothed wrinkles.

⌚ 60 minutes Hollywood cut € 59,-

Sugaring is a proven alternative to hair removal with hot wax, particularly recommended for people with allergies. Similarly to waxing, hair must be at least 0.5 cm in length for sugaring. This typically means waiting at least two weeks since last shaving for your sugaring appointment.

Sugaring is the oldest known hair removal practice that dates all the way back to 1900 BC in Ancient Egypt.

The sugar-sweet paste offers a highly effective way to remove hair. As it firms, it encapsulates the hair follicle and removes hair in the direction of growth, meaning fewer skin particles are removed and it doesn't hurt as much.

The paste is suitable for all skin types and highly compatible, which is hardly surprising as it only contains natural ingredients. Benefit from reduced irritation and spots.

Sugaring is therefore suitable for sensitive skin and sensitive areas such as armpits, intimate areas and the face.
